Getting to the main idea of a passage can be difficult for some students. Use this digital, as I did, for morning work or homework. Print out the PDF version and work small group. I love ALLLLL of your resources and this one is no exception! I use these (laminated) Yoga cards to reference when either myself or another student is leading the class in Brain Breaks in between subjects. This has been a great resource for our journal writing in class! The prompts are always thought provoking and even get my hesitant writers to get something on the paper. Thank you! I love this bundle! I have used it for the past two years and it has been so great to use it to get to know my new students. My students also enjoy doing them as they are easy activities to do. This is an excellent resource. Well created, student friendly, clear and concise! Thank you so much for sharing your talents! WOW!!!!!! Five stars is not enough!!! I could not have been more impressed with the quality of this product!!!! Do not hesitate to purchase from this seller! The task cards work wonderfully in literacy centers. They provide quick review and serve to upgrade student's writing. Environment skill support is essential, and the anchor charts provide the scaffolding needed by many. I loved everything in this resource. My fifth graders loved the flipbook. They reflected and practiced self-awareness, which is something we covered in SEL. I did this at the end of the year as a fun activity. My class does Daily Affirmations, and these cards create great conversation starters as well as reminders. They enhance our Growth Mindset board so beautifully and help keep me on track when I start to feel frustrated. Print, laminate a set for your wall, and have kids copy them into a journal. Such a great boost to start the day! This is an amazing resource and I have used it over and over again! Thank you for such tremendous products! It barely fits in a year without skipping a few lessons. I am very pleased with everything I purchased from your store! Thank you for creative, colorful, USEFUL resources! I absolutely loved these awards! I love all the categories. I love all the sayings that go with each category. I love how there are boy and girl awards for each category, and most of all I love how super easy it was to use! All I had to do was enter my name and date and it was added to each award automatically. Then all I had to do was fill in the names. Thanks for this resource!! I loved this resource! It was simple to use, engaging, and relevant. I loved the simplicity of each slide. The text and graphics were kid-friendly, beautifully formatted for easy reading, and best of all, there was no prep! I used this during our Owen & Mzee unit on an emergency SUB day! The digital resource was perfect to assign via google classroom at home. I loved that my students were able to independently review multiple skills with our current text. This was the best resource I have found for teaching my students strategies for figuring out unknown words. We completed one of each type of activity in a whole group setting. Then they practiced with a partner before doing their independent practice. My students were highly successful with this resource. Thank you! This is everything you could need and more. The titles are awesome, and the activities are so well done. My kids loved it across both of my grades. Wow! This resource doesn't take much time to prep. I made copies on color paper, cut, and laminated them so I could store them for future use. Each morning, I share an affirmation that I feel my students can relate to and I have them share their feelings or point of view on the affirmation. I post each day's affirmation on the wall near the classroom door, and we reference past ones as needed. My goal is to have a wall of affirmations by the end of the school year. These task cards are set-up for easy use by the students in the Google classroom. The text is engaging and with the recommendation for 3rd grade to 6th grade, all students have an opportunity to have success. The examples on the cards were awesome. I was able to use the cards in multiple ways (bingo, flashcards, etc). This is an awesome resource. I've purchased many Growth Mindset resources over the years, and this is by far one of the best. It is thoughtfully put together, thorough, and meaningful. The students are engaged...and mindsets are shifting! Love it. Thanks! Free Printable Cause and Effect Picture Cards have become an indispensable resource for countless individuals and families. Free Printable Cause and Effect Picture Cards you can find the images below. Explore the World of Cause and Effect with Picture Cards! Are you looking for a fun and educational way to teach your child about cause and effect? Look no further than our free cause and effect picture cards! Product Description: This is a 15 card deck to help students who are working on cause and effect goals. It can be used to target other speech and language goals as well, such as, receptive and expressive language, reading comprehension, etc. This deck has been created for students who struggle with cause/effect or contingency concepts. Most students understand this with no difficulty but our students on the autism spectrum usually find this challenging. This deck has been created for them to start learning about the concept in concrete terms through common scenarios and then refer back to them to learn the cause and effects of their own actions. It also implicitly targets other concepts like sequencing and working memory while they are attempting to unfold the information presented to them. It is critical to discuss the scenarios before finding the correct answers. The main purpose of this deck is for the students to understand the scenarios as clearly as possible and come up with their own answers before checking the different answer choices provided. Questions/Comments: thespeechladder2019@gmail.com What's included: • A deck of 15 Boom task cards. • The student will choose the correct response out of four options provided. This is a set of task cards that you can use on your computers and/or mobile devices! No printing, cutting, or laminating, just assign the decks to your students and you are ready to go. Students get immediate feedback on their progress and you get a suite of teacher reporting tools. Fun, effective, and easy to use. Perfect for tele-therapy or distance learning! Before you download this, make sure you understand the following: You will purchase a PDF with a link that will give you access to the cards on Boom Learning! This is not a printable resource, it was designed to use in the Boom Card Program! To use Boom Cards, you must open at least a FREE Boom Learning account. Free accounts include the ability to generate student progress reports for 5 students and to make up to five decks. Free accounts also allow you to assign Boom Cards to unlimited students (without progress reports) using the Fast Play option available in the Library. You will need: A computer, laptop, tablet, or Chromebook An internet browser that is less than 3 years old (OR the free BOOM app) A Boom Learning account (FREE!) An internet connection that students can use on a computer, tablet, or interactive whiteboard to access the games How to access your activity: After you make the purchase, you will download a PDF with instructions and a link. You'll click the link to add the book to your Boom library (if you do not already have an account, you will be prompted to set up a free one when you click the link). What does this download allow? One license allows you (one SLP/teacher/educator) to use the games with all of your students. You can even assign them as homework if you like. This PDF must NOT be shared in any way. If you want to share it with a co-worker, please send them to this page to download it for themselves! Remember to leave feedback to earn credits toward future purchases! Skip to content The cause and effect matching cards and task cards are an effective and flexible resource you can use to differentiate instruction for a variety of learners. That's 2 resources for the price of 1! The matching cards (12 cause, 12 effect) can be used to play memory match with a small group, used to match up random partners, or to create a visual display. The task cards are great to have on hand as an extension activity for early finishers, a remediation activity, and as a resource for multi-age and ability groups, and to play Scoot. Project the task cards for whole group and/or small group mini-lessons and practice, or use the printer friendly version to save your ink. You can also use the included safari-themed "SCOOT" board to assess knowledge of cause and effect quickly. Updated to add: this set now includes a set of Boom Cards for an interactive learning experience for your students. Teachers will need to create a free account at boomlearning.com to redeem their Boom cards. These materials are classroom-tested, and have been used for years with my intervention students in grades 2-5, as well as in my 2nd and 3rd grade classrooms. Please contact me with any questions! Be sure to download the preview for 4 free matching cards and 2 free task cards. Check out the preview here! What is included: - How to Play Scoot - 24 Cause and Effect Matching Cards (Color and B/W) - 24 Task Cards (Color and B/W) - Answer Keys - 24 Boom Cards (Same content as the task cards, just in interactive Boom Cards)
